

This is a 2.5 hour drive...but well worth it if you have a place for espaliered bushes, trees (including fruit). If we planned as a master gardener group...I am sure they would be willing to give us some tips on how to do this ourselves. I use this method with pyracantha against a wall. It does require upkeep...but works well for me!

Just a thought...

# River Road Farms

ESPALIER TREES TRAINED IN THE EUROPEAN TRADITION

**Dear Friends of Espalier,**

The new availability format included in this mail came about because some of you asked for it. We've included drawings of some of the tree shapes along with the varieties we have available in that shape. I hope that this is helpful to you when considering the Espaliered Tree that works best for your garden.

We have beautiful Espaliers ready for you. We have both fruit and ornamental varieties. Fall and winter is the best time of year to plan and plant for next season's garden. Please give us your questions and ideas. We are always ready to help!

Call [1-800-297-1435](tel:1-800-297-1435) or email me at [riverrd@usit.net](mailto:riverrd@usit.net).

Have a wonderful day!

Angie
